Systems of Linear Equations Section WILA What is Linear Algebra? C10 (Robert Beezer) In Example TMP the rst table lists the cost (per kilogram) to manufacture each of the three varieties of trail mix (bulk, standard, fancy). For example, it costs \$3.69 to make one kilogram of the bulk variety. Re-compute each of these three costs and notice that the computations are linear in character. M70 ...

erally, an equation is said to be homogeneous if $ky(t)$ is a solution whenever $y(t)$ is also a solution, for any constant k , i.e. the equation is invariant under the transformation $y(t) \hat{+} ky(t)$.

Algebra Word Problems Many algebra problems are about number relationships. In most word problems, one number is defined by describing its relationship to another number. One other fact, such as the sum or product of the numbers, is also given. To solve the problem, you need to find a way to express both numbers using the same variable. See how to write an equation about two amounts using one ...
