Learn and research biology, science, chemistry, biology, physics, math, astronomy, electronics, and much more. 101science.com is your scientific resource and internet science PORTAL to more than 20,000 science sites.

**Biology - 101science.com**

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field.
