

blood glucose 3 year pdf

Blood glucose monitoring is a way of testing the concentration of glucose in the blood . Particularly important in diabetes management, a blood glucose test is typically performed by piercing the skin (typically, on the finger) to draw blood, then applying the blood to a chemically active disposable 'test-strip'.

Blood glucose monitoring - Wikipedia

This kit is used for emergencies if your blood glucose drops so low that you become unconscious or can't swallow. If you are taking medication that increases your insulin levels, or if you take insulin injections, you are at risk for low blood glucose (hypoglycemia).

Blood Glucose Monitoring - Canadian Diabetes Care Guide

Blood glucose (also called blood sugar) is an essential measure of your health. Too much glucose in the blood is the common factor between all types of diabetes. Glucose gets a bad rap, but it's not always bad. In fact, glucose is good! Many foods break down into blood glucose is used for energy
