Thermoelectric power generation, which can directly convert heat energy to electricity without any moving parts, is considered to be one of the cleanest methods of energy conversion available today.

Chemistry of Materials (ACS Publications)

This is a list of important publications in chemistry, organized by field. Some factors that correlate with publication notability include: Topic creator “ A publication that created a new topic.

List of important publications in chemistry - Wikipedia

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.

Chemistry - Wikipedia

Chemistry Overview. The Chemistry examination covers material that is usually taught in a one-year college course in general chemistry. Understanding of the structure and states of matter, reaction types, equations and stoichiometry, equilibrium, kinetics, thermodynamics, and descriptive and experimental chemistry is required, as is the ability ...

ABSTRACT. Continuous crop expansion has led to a growing demand for phosphate fertilizers. A sound knowledge of the dynamics of phosphorus, and its interaction with iron oxides and organic matter, can be useful to develop effective strategies for sustainable management, especially in a scenario of increasing shortage of mineral phosphate resources.
