Teaching The Science Process Skills What Are the Science Process Skills? S cience and teaching students about science means more than scientiï-c knowledge. There are three dimensions of science that are all important. The ï-rst of these is the content of science, the basic concepts, and our scientiï-c knowledge. This is the dimension of science that most people ï-rst think about, and it is ...

### **Longman Science Process Skills Form 5 Answer**

Science process skills (SPS) consist of both basic science process skills (BSPS) and integrated science process skills (ISPS). BSPS provide the intellectual groundwork in scientific inquiry, such as the ability to order and describe natural objects and events. Examples of BSPS are observing, classifying, measuring and predicting. The BSPS are the prerequisites to the integrated science process ...
