Lava lakes are large volumes of molten lava, usually basaltic, contained in a volcanic vent, crater, or broad depression. The term is used to describe both lava lakes that are wholly or partly molten and those that are solidified (sometimes referred to as frozen lava lakes in this case).

Lava lake - Wikipedia

International Conference on Magnet Technology . The MT conference series is the most important international forum addressing all aspects of magnet research, development, construction, testing, and operation.

International Conference on Magnet Technology

Venus is fully covered by thick clouds which hide most of its atmospheric circulation. However, the global patterns of clouds should reflect and be clues for revealing the atmospheric circulation.
