Why do objects like wood float in water? Does it depend on size? Create a custom object to explore the effects of mass and volume on density. Can you discover the relationship? Use the scale to measure the mass of an object, then hold the object under water to measure its volume. Can you identify all the mystery objects?

Density - Mass | Volume - PhET Interactive Simulations

Objective: To identify what features of social media “ promotional messaging or peer networks ” can increase physical activity. Method: A 13-week social media-based exercise program was conducted at a large Northeastern university in Philadelphia, PA.

Efficacy and causal mechanism of an online social media

An academic term (or simply term) is a portion of an academic year, the time during which an educational institution holds classes. The schedules adopted vary widely.

Academic term - Wikipedia
