

## **socialization parent child interaction pdf**

In sociology, socialization is the process of internalizing the norms and ideologies of society. Socialization encompasses both learning and teaching and is thus "the means by which social and cultural continuity are attained".

## **Socialization - Wikipedia**

Gender socialization is the process through which children learn about the social expectations, attitudes and behaviours typically associated with boys and girls.

Abstract. Background: Gender differences in the relationship between parent drinking and adolescent drinking are poorly understood. As parental alcohol use is a primary early exposure to alcohol for adolescents, it is important to understand how consequences may differ for adolescent males and females.
