A berry is a small, pulpy, and often edible fruit. Typically, berries are juicy, rounded, brightly colored, sweet or sour, and do not have a stone or pit, although many pips or seeds may be present. Common examples are strawberries, raspberries, blueberries, blackberries, red currants, white currants and blackcurrants. In Britain, soft fruit is ...

Plant Disease is the leading international journal for rapid reporting of research on new, emerging, and established plant diseases. The journal publishes papers that describe translational and applied research focusing on practical aspects of disease diagnosis, development, and management in agricultural and horticultural crops.

### **Plant Disease Journal: First Look**

There is an increased awareness on the role of preharvest abiotic stresses on the quality of horticultural products and its retention although there is a need for more pertinent research and technological advances, especially under climatic change scenarios.
